Health Science Department
Health Science major
Fall 2017

HAN 251.01: Research Methods in Health Science (3 credits)

Day/Time: Friday, 12:00pm – 3:00pm
Meeting Place: HSC Level 2, Lecture 2

Instructor: Dr. Zelizer
SHTM, HSC Level 2, Rm 418
631-444-6158
deborah.zelizer@stonybrook.edu

Office hours: Immediately after class and by appointment

Description:
Course provides students with a strong foundation in quantitative, qualitative, and mixed methods research designs and methods. Emphasizes the relationship between the literature review and the research process, the elements of a research proposal, and applies research designs and methods to case study research projects. A required element of the course is the completion of the on-line CITI training in the protection of human subjects.

Course Goal:
To introduce and develop a foundation of knowledge and skills in research methods and designs that will be applied during the senior year curriculum (i.e. students will be required to write a research proposal in the senior year).

Behavioral Objectives: Upon completion of this course, students will be able to:

1. Demonstrate the ability to critique a peer-reviewed article.

2. Discuss the relationship between literature review and a research study.

3. Differentiate between quantitative and qualitative approaches in health science research.

4. Distinguish between a research purpose statement, problem statement, and research question.

5. Recognize when to use quantitative and qualitative approaches to answer research questions.
6. Identify independent and dependent variables.

7. Align research questions to appropriate designs and methodologies.

8. Compare strengthens and limitations of each research design and method.

9. Analyze proposed research projects and determine the appropriate research design and research methods to utilize.

10. Distinguish various data collection methods.

11. Determine data analysis strategies based on data sets.

12. Explain the process and elements of informed consent.

13. Discuss ethical issues in clinical trials research with the implementation of the Institutional Review Board.

14. Synthesize the process of protecting human research subjects with the concept of good clinical practice in research.

15. Distinguish between culturally competent research and those research designs that are not culturally competent.

Required Textbook:

Required articles:

**Required material:** Turning point clickers

**Teaching Strategies:** Lecture with student discussion
- Case studies
- Clicker questions
- Independent study

**Grading Scale:** (there is no P/NC or G/P/NC grading option for this course; it must be taken for a letter grade)

The grade of C or better is required in this course to advance to the Health Science major’s senior year curriculum.

**Evaluation:**

**Midterm** - 40%

**Final** - 40%
- Note: Students must write their name/id# on the paper test and return every page of the midterm and final exam at the conclusion of the exam. Only the answers notated on the scantron will be considered for grading. Students must bring #2 pencils, an eraser, their SBU ID card and highlighters with them for each exam.

**Homework and in-class individual and group assignments** - 10%

**CITI Homework** is worth 5% of the 10%
- The CITI web-based program is available at [http://www.citiprogram.org](http://www.citiprogram.org)
- Students must complete both trainings:
  - Human Subjects Protection in Social and Behavioral Sciences Course (Group 1 SBS)
  - The Responsible Conduct of Research (RCR) in Social and Behavioral Sciences Course.
- Additional information is posted on Blackboard under the [Document link](http://www.citiprogram.org)
• Some homework assignments are in class assignments that must be submitted at end of the activity. See the syllabus and Blackboard for additional information.

Attendance and Participation - 5%
• Attendance is mandatory and is only assessed via clickers
  o Your clicker will be the ONLY way in which your class attendance will be documented
    ▪ There will be NO sign in sheets if you forget your clicker or your batteries die
      • Be sure to bring extra batteries to class in the event your battery dies
  
• Clicker points will be uploaded to Blackboard at the completion of each class session.
  o It is YOUR responsibility to make sure that your clicker has been registered and that you are clicking in and sending a message. Should you have any problems with your clicker, please go to the Help Desk in the Melville Library.
• Students are NOT permitted to share clickers with other students AND/OR to click in for a student who is not in class.
• Participation is assessed by active engagement in class discussions, attentiveness and instructor observation of student interaction during small group work and clicker questions.

Critique of Journal Articles – 5%
The required article and form to critique the journal article are posted on Blackboard under the Assignments link. This assignment must be typed double-spaced in Times New Roman, font 12 and a hard copy submitted during class. Failure to do so will result in a grade of zero for the assignment. Late assignments, without an excused absence, will be accepted but are subject to a grade penalty.
• Students will be randomly selected to present their critique to the class; all students are required to participate in the discussion.

Examination Policies
Students may only have pencils, easer, highlighters, and ID cards with them during the exam. During examinations, all electronic devices, books and notebooks, pocketbooks/knapsacks must be placed on the floor either in the front or back of the room. Students are not permitted to talk during exams unless they are given permission from their instructor. Sometimes, an exam will be proctored by a health science staff member who will be responsible for implementing the examination policies of the program. If a student is asked to move seats during an exam, s/he must comply.

All electronic devices including but not limited to cell phones, apple watches, and Fitbits must be turned off and stored in backpacks or on the podium. Meaning, these devices cannot be on your person during the exams.
It is the student's responsibility to make sure that all test questions have been answered prior to leaving the examination area. Students cannot review or make changes to exams once they have left the room in which the examination is being given. Students are required to return their scantron and all pages of the paper exam. Only scantron answers will be considered for grading purposes.

Students must complete the exam in the allotted time, students must turn in the exam when the instructor calls time. If a student refuses to turn in the exam/scantron (when the time instructor/proctor calls time) the student will be given the grade of zero for that exam.

Examinations will begin on time and any student arriving late will not be permitted to take the examination. Make-up examinations, without penalty, will be given to students with approved excused absence (i.e., medical emergency, conflict with west campus exam, etc.). For those students with an excused absence, the make-up examination must be completed prior to the next class, if not the grade will be posted as a zero (0).

Students without an excused absence will be permitted to take a make-up exam with grade penalty (the highest grade the student can earn is a C). The examination must be completed prior to the next class, if not the grade will be posted as a zero (0). If you have a final examination conflict with a west campus course, a request for an alternate time or day needs to be submitted in writing to your professor with your final examination schedule and the specific course at least four weeks prior to the final examination.

All make-up exams (excused and unexcused) are given in an alternative format (i.e., short answer, fill in the blank, essay, etc.)

Extra Credit:
Please note there is no extra credit, extra assignments or additional work given or accepted to raise a student’s grade.

Course Expectations:
Attendance is mandatory. Attendance is determined solely by clicker participation. Attendance will be assessed multiple times during the class session. Participation is assessed by the instructor.

Respect for the instructor and fellow students throughout class is expected.
- Students must be on time.
- Cell phone ringers must be set to vibrate only.
- Students may be permitted to use their laptops or other electronic devices during classroom time for academic purposes only.
  - Checking email, surfing the web for entertainment purposes, etc. is not permitted and will negatively impact your participation grade.
- Professional behavior is expected at all times while in the Health Science Center.

Procedure to Request an Excused Absence:
Excused absence petitions must be submitted in writing either 1) one week prior to an expected absence (i.e., court appearance, doctor visit, exam conflict with west campus course, etc.) or 2) no later than one week after an unexpected absence (i.e., death in family, surgery, medical emergency, car accident, etc.). Failure to follow this procedure will result in denial of the petition and negatively impact class attendance, participation and make up work including quizzes & exams. Proper documentation must accompany the request (i.e. court papers, doctor note). Note, missing class for personal and or family events (weddings, vacations, etc.) will not be excused.

Please Note: An excused absence does not excuse student from making up coursework and may impact the participation grade.

Privacy of Course Material
When participating in social electronic communication (Twitter, You Tube, Facebook, Email, Text Messaging, CourseHero, etc.):
   a. A student assumes total responsibility for content (photos, comments, videos, etc.) and monitoring.
   b. Students are prohibited from photographing or video or audio recording any part of Health Science coursework unless they have permission from the course instructor.
   c. All academic materials (exams, assignments, student projects and presentations, case studies, lectures, etc.) are confidential and must not be disseminated in anyway unless the student receives approval from the department chairperson in writing.

**Americans with Disabilities Act:**
If you have a physical, psychological, medical or learning disability that may impact your course work, please contact Disability Support Services, ECC (Educational Communications Center) Building, room 128, (631) 632-6748. They will determine with you what accommodations, if any, are necessary and appropriate. All information and documentation is confidential. Students requiring emergency evacuation are encouraged to discuss their needs with their professors and Disability Support Services. For procedures and information, go to the following web site.
http://www.ehs.sunysb.edu/fire/disabilities/asp

**Academic Integrity**
Each student must pursue his or her academic goals honestly and be personally accountable for all submitted work. Representing another person's work as your own is always wrong. Faculty are required to report any suspected instances of academic dishonesty, as per the SHTM Academic Policies and Procedures.
Since this is a HAN course, you will be held accountable to the academic dishonesty policies and procedures of SHTM. Please review the polices posted at https://healthtechnology.stonybrookmedicine.edu/programs/hs/about/information/seniors

**Please note: During exams, when you enter the room, please adhere to the following:**
1. The only items in your hand as you enter the room should be pencils, erasers, ID badge, and highlighters. All electronic devices (i.e., cell phones, smart watches, step trackers, Google glasses, etc.) must be put either at the front of the room or in your bag/backpack. *If you are found with an electronic device (cell phone, smart*
watch, step tracker, etc.) on your person during an exam it will be an automatic charge of academic dishonesty.

2. Once you enter the room there will be no more talking!

3. All items (i.e., notes, cell phones, etc.) must be packed away before you enter the room. Before you take your seat, you must put your pocketbooks, backpacks, etc. at either the side of the room or the front of the room.

4. Find your seat number.

5. Do not turn exam over until you are instructed to (meaning, do not start filling out scantron, etc.).

6. Other information. If you are wearing a ball cap, the brim must be turned to 6 o’clock; if you wish to bring a drink to your seat it will be permitted but the faculty might ask to inspect the bottle/container; once the exam starts a student will not be permitted to leave the room and return (i.e., go to the rest room and then return to exam).

Critical Incident Management
Stony Brook University expects students to respect the rights, privileges, and property of other people. Faculty are required to report to the Office of Judicial Affairs any disruptive behavior that interrupts their ability to teach, compromises the safety of the learning environment, or inhibits students’ ability to learn. Faculty in the HSC Schools and School of Medicine are required to follow their school specific procedures.

Blackboard
Blackboard is a web-based course management system. Students will find all course documents and announcements on Blackboard. All currently registered students have blackboard user accounts. You will see this course listed when you log into Blackboard. Visit the website to access the class (your classes using blackboard will be listed). You will log in using your Net ID and your Password/your Stony Brook ID number. You should have received instructions at registration as to how to choose and set your Net ID, as this is identification you use to access Solar System as well. You are required to check Blackboard each week. While logged into Blackboard, students must check their personal information to ensure that the email address is current. You can access class information on-line at: http://blackboard.sunysb.edu For help or more information see: http://www.sinc.sunysb.edu/helpdesk/docs/blackboard/bstudent.php For problems logging in: go to the helpdesk in the Main Library SINC Site or the Union SINC Site. You can also call: 631.632.9602 or email: helpme@ic.sunysb.edu
